INTRODUCTION

By Senator Friday—

SJR 1592—A Joint resolution proposing an amendment to the State Constitution; amending Section 15(b) of Article III; providing for four year terms for members of the House of Representatives.

Was read the first time by title. On motion by Senator Friday, the rules were waived and the joint resolution was placed on the Calendar.

By direction of the President, the Secretary prepared for the Senate the following explanation for introduction of SJR 1592:

The Constitution of 1968 contains a provision requiring that there shall be submitted to the electorate of this state the question as to whether house members shall have four year terms. A careful checking of the records fails to reveal the introduction of any legislation responding to this mandate in either the House or the Senate, to date, nor the intention to do so on the part of the House. Therefore, SJR 1592 has been introduced in the Senate and its passage sought solely for the purpose of complying with the constitutional mandate in this matter. Affirmative votes cast on the passage of SJR 1592 are not to be construed as affirmative votes upon the merits of the joint resolution but as votes cast solely for the purpose of complying with the constitutional mandate.

A straw vote, taken upon the question that were the Senate, without a constitutional mandate, considering the question of four year terms for House members, showed the following:

For the four year term:

The Conference Committee on Appropriations offered the following amendment:

On page 1, strike everything after the enacting clause and insert the following:

Be It Enacted by the Legislature of the State of Florida:

Section 1. The moneys in the following items are appropriated from the named funds for the 1970-71 fiscal year to the state agency indicated, as the amounts to be used to pay the salaries and other expenditures of the named agencies, and are in lieu of all moneys appropriated for these purposes in other sections of the Florida Statutes, except that if additional moneys are needed to meet the requirements of a continuing appropriation of a trust fund and additional moneys are available in the named trust fund, the department of administration is authorized to approve the expenditure of additional, available moneys in such trust fund in such amount(s) as may be necessary to meet such deficiency. Appropriations made in items 207-321, to the division of universities of the department of education may be transferred notwithstanding the provisions of Section 216.292, Florida Statutes, between institutions of higher learning with the approval of the department of administration upon its determination that such transfers are necessary because of shifts in the number of full-time equivalent students budgeted at each institution, or for other justifiable reasons, in order to adequately provide the necessary services at each institution which the department of administration determines to be in the best interest of the state; provided however, the total annual appropriation in this section to any institution may not be increased or decreased by more than twenty per cent as a result of transfers.

From Principal of State School Fund

1. Division of Community Colleges	8,200,000
2. Division of Vocational Education	4,300,000

Provided, however, upon determination by the Governor and the Comptroller concurring that funds are wholly or partially available in the general revenue fund during the 1970-71 fiscal year to fund these appropriations or parts of these appropriations then the amounts so determined to be available shall be deemed to be appropriated from the general revenue fund.

Section 4. The sum of four million (\$4,000,000) dollars is appropriated from the general revenue fund to be distributed to individual school districts for capital outlay purposes for critical facility needs and for specialized equipment necessary for the initiation of programs for exceptional children in accordance with criteria and priorities to be established by the state board of education. Section 10. No state moneys appropriated in this act to the department of health and rehabilitative services, division of health in items 476-487 or to the division of family services in items 452-475 shall be used to pay travel expenses or out-of-state tuition of individuals receiving educational leaves, grants or scholarships. Provided, however, out-of-state tuition may be paid in those instances in which authorized courses are not offered in the state university system.

Section 11. If the department of administration determines that the best interest of the state would be served by transferring amounts appropriated for the department of health and rehabilitative services, division of mental health, the division of retardation, or the division of health to the division of family services, then, notwithstanding the provisions of Chapter 69-106, section 31(4)(u)8b, F.S., any amounts appropriated to those agencies may be transferred to the division of

family services to pay for treatment of psychiatric, mentally retarded, or tubercular patients.

Notwithstanding the provisions of section 965.08(3), F.S., any funds received for the treatment or care of patients, based upon the federal social security act as amended, by an institution in the divisions of mental health or retardation may be deposited into a trust fund for the operation of the division with the approval of the department of administration.

The secretary of the department of health and rehabilitative services is authorized to transfer one-fourth of one per cent (¼%) of the total funds appropriated herein from one division to another within the department in order to meet deficiency requirements, to effectuate efficient reorganization, or in programs for which additional federal funds may be earned or effectively utilized which are not specifically provided herein.

Section 12. Method of obtaining part of the cost of providing the services provided in items 465 and 466 of section 1 of this act.

(a) Although the state is responsible for the full portion of the state's share of the matching funds required in the medical assistance program for the needy under the social security act as amended, which state's share is as shown in this act, the state, in order to acquire a certain portion of these funds, shall charge the counties for certain items of care and service as hereafter provided.

(b) County participation which began January 1, 1970, is continued, and each county shall participate in the following items of care and service:

(1) Payments for inpatient hospitalization in excess of 12 days.

(2) Payments for nursing home care in excess of \$120 per month.

(c) County participation shall be thirty-five percentum (35%) of the total cost of providing the above items.

(d) Each county shall set aside sufficient funds to pay for items of care and service provided to the county's eligible recipients, regardless of where in the state the care or service is rendered, in those items of care and service in which the counties participate. Each county shall pay into the general revenue fund unallocated its pro rata share of the total county participation based upon statements rendered by the department of health and rehabilitative services, division of family services. The comptroller shall withhold from the cigarette tax receipts or any other funds to be distributed to the counties the individual county share which has not been remitted within thirty (30) days after billing.

(e) In any county where there is located a special taxing district or authority which will benefit from the medical assistance programs contemplated by this act, the board of county commissioners may divide the county's financial responsibility for this purpose proportionately and each such authority or district shall furnish its share to the board of county commissioners in time for the board to comply with the requirements of subsection (d) above. Appeals of the aforesaid proration by the board of county commissioners shall be made to the comptroller who shall then set the proportionate share of each party.

Section 13. Salaries of judges of district courts of appeal and judges of circuit courts; limitations:

Provided that no judge of a district court of appeal shall receive from any county or municipality any supplemental salary which shall make his total salaries exceed \$31,200 per annum from July 1, 1970, through January 5, 1971, and \$32,000 per annum thereafter, and no judge of a circuit court shall receive from any county or municipality any supplemental salary which shall make his total salaries exceed \$28,500 per annum from July 1, 1970, through January 5, 1971, and \$30,000 per annum thereafter, but should the state salary of a judge of a district court of appeal or a judge of a circuit court fall below the maximum stated above, then any local or special law to the extent otherwise applicable shall be effective to provide a total compensation for such judges up to but not to exceed the maximum indicated above; provided, however, any supplement now provided by local or special acts, to the extent it does not conflict with the maximum salary herein fixed, shall not be affected by this provision.

Section 14. Salaries and other related costs of state attorneys offices; limitations:

(a) Salaries of state attorneys:

(1) The salaries of the state attorneys to be paid by the state who elect to serve on a full-time basis, as provided in subsection (2), shall be as follows: \$25,500 per annum in the sixteenth judicial circuit providing Senate Bill 54 or similar legislation becomes law; \$25,500 each per annum in the first, third, ninth, fifteenth, seventeenth, eighteenth, and nineteenth judicial circuits; \$26,500 each per annum in the tenth and thirteenth judicial circuits; \$28,000 per annum in the seventh judicial circuit; \$28,500 each per annum in the second, fifth, eighth, twelfth, fourteenth, and twentieth judicial circuits; \$29,000 per annum in the sixth judicial circuit; \$30,000 per annum in the fourth judicial circuit; and \$32,000 per annum in the eleventh judicial circuit. The state attorneys so serving full time shall not receive from any county or municipality any supplemental salary, except in the eleventh judicial circuit where the total salary shall not exceed the salary of the county attorney in said circuit.

(2) If the state attorney elects to serve full time, he shall submit an affidavit to the clerk of the circuit court with certified copies sent to the judicial administrative commission and the department of administration.

(3) If the state attorney elects not to serve full time, his salary to be paid by the state shall be \$15,750 per annum; provided nothing herein shall be construed to reduce the salary of any state attorney; provided, further, any supplement now provided by local or special act shall not be affected or repealed by this provision.

(b) Salaries of assistant state attorneys:

The salaries of the assistant state attorneys to be paid by the state shall not exceed \$20,000 each per annum on a full-time basis and \$12,000 each per annum on a part-time basis.

(c) There shall be no full-time assistant state attorney paid from state funds in a judicial circuit unless the state attorney of said circuit has elected to serve full time.

Section 15. Salaries and other related costs of public defenders; offices; limitations:

Salaries of public defenders:

(a) The salaries of the public defenders to be paid by the state, based on a full-time service, as provided in subsection (b), shall be \$21,500 each per annum; provided that no such public defender shall receive from any county or municipality any supplemental salary which shall make his total salaries exceed \$27,000 per annum; provided, however, any supplement now provided by local or special acts, to the extent it does not conflict with the maximum salary herein fixed, shall not be affected or repealed by this provision. If the public defender elects not to serve full time, his salaries to be paid by the state shall be \$11,500 per annum.

(b) If the public defender elects to serve full time, he shall submit an affidavit to the clerk of the circuit court with certified copies sent to the judicial administrative commission and the department of administration.

(c) There shall be no full-time assistant public defender paid from state funds in a judicial circuit unless the public defender of said circuit has elected to serve full time.

Section 16. Full-time service as contemplated in sections 14 and 15 of this act shall mean that the person occupying the position of state attorney, assistant state attorney, or public defender shall not otherwise engage in the practice of law or accept any compensation in addition to their salary for any legal service.

Section 17. Notwithstanding the provisions of chapter 27, F.S., the state attorneys and the public defenders shall determine the number of authorized positions to be paid from their respective appropriations.

Section 18. It is the intent of the legislature that the increased appropriation provided in this act for the offices of state attorneys, public defenders, county health units and foster home care is to relieve the counties of all or part of the costs of these activities now being paid from county funds. Should

these additional funds be insufficient to provide for each of the categories, then any reduction shall be proportionate both as between categories and as between counties and reduction between categories and counties shall be in exact ratio to reduction in funds available.

Section 19. Where a state agency for which an appropriation is made in this act is jointly financed from the general revenue fund and from a trust fund, then, notwithstanding the provisions of section 216.292, Florida Statutes, general revenue fund appropriations for salaries may be transferred to a trust fund appropriation for salaries for the purpose of processing centralized payrolls.

Section 20. Where any reorganization has been authorized by the 1969 and 1970 Legislature and the necessary adjustments of appropriations and positions have not been provided for, then, notwithstanding the provisions of section 216.292, Florida Statutes, the administration commission may approve the necessary transfers to accomplish the purposes of such reorganization.

Section 21. Where any data processing centers or motor pools are established during the 1970-71 fiscal year pursuant to law, and the necessary adjustments of appropriations and positions have not been provided for, then, notwithstanding the provisions of section 31(4)(u)8, of section 216.292, Florida Statutes, the administration commission may approve the necessary transfers to establish these activities.

Section 22. None of the moneys appropriated in this act to the executive branch may be contracted for or expended for consultant services in the field of electronic data processing for what is known in the trade as hardware or software without the prior approval of each contract or obligation by the department of general services; provided, however, that this section shall not apply to the electronic data processing exempted under the provisions of section 23.032, Florida Statutes.

Section 23. Recognizing the serious shortage of physicians in the State of Florida, and in an effort to immediately aid in alleviating this condition, it is the legislative intent that all state financed medical schools and all medical schools within the state receiving state funds will develop a teaching program in family medicine. Plans for the development of a department of family practice at each state university medical school shall be developed under the supervision of the board of regents and such unallocated funds as may be at its disposal may be used to implement this high priority item. A report of the development and implementation of this proposal shall be presented to the legislature on the first day of the next regular session.

Section 24. Where any trust fund is abolished by the 1970 Legislature and the revenues of said trust fund are deposited in the general revenue fund the appropriations in this act from such trust fund are hereby appropriated from the general revenue fund.

Section 25. None of the funds appropriated in the general appropriations act or otherwise provided by law shall be used for a Washington Office as requested by the Governor, the Secretary of Administration, and the Department of Community Affairs.

Section 26. In regard to the funds appropriated in section 1, items 85-88 from the regulatory trust fund, it is the intent of this Legislature that there is hereby created a regulatory trust fund under the division of regulation of the department of banking and finance. All funds received pursuant to chapters 494, 516, 519, 520, 543, 559—Parts I and IV, and 657, Florida Statutes, shall be deposited into the regulatory trust fund. All trust funds heretofore created in the above mentioned chapters are merged into and become a part of the regulatory trust fund. All moneys collected pursuant to the aforementioned chapters and heretofore deposited in the general revenue fund are hereafter deposited in the regulatory trust fund.

Section 27. The funds appropriated in section 1, items 18 and 18a from the general revenue fund to the department of administration are to be used solely to supplement the appropriations made from the general revenue fund to the named agencies in section 1 for the particular activity or function to be performed when the need arises as a result of an emergency, or deficiency, as the case may be. This money shall be transferred to the affected requesting agency's account only after the administration commission hears evidence and determines the existence of an emergency or that insufficient moneys were appropriated to pay the necessary costs of proper

administration of the duties assigned to the requesting agency, as the case may be, during a public hearing and after requesting the advice of the legislative appropriations committees. No money appropriated in section 1, items 18 and 18a shall be used to create any new agency or function, or for attorney's fees, increases of salaries or the construction or equipping of any building.

Section 28. No moneys appropriated in items 1-871 of section 1 of this act shall be expended directly or indirectly as salaries or otherwise, to inure to the benefit of any employee or student who advocates the overthrow of the government of the United States, the State of Florida, or a state university administration, by force and violence, or willfully practices, or advocates with clear intent, the disruption of or interference with the lawful administration or functions of any state university or college.

Section 29. No moneys appropriated in items 1-871 of section 1 of this act may be used to provide a loan, guarantee of a loan or a grant to any applicant who hereafter has been convicted in any court of record of any crime which involves the use of or the assistance to others in the use of force, trespass, or the seizure of property under control of any state college, state junior college or state university to prevent officials or students at such institutions from engaging in their duties or pursuing their studies.

Section 30. No moneys appropriated in this act or by any county shall be used, directly or indirectly, to assign, transport or compel attendance of any student to any school based solely upon considerations of race, creed, color, or national origin, or for the purpose of achieving equality in attendance or increased attendance or reduced attendance at any school at which persons of one or more particular races, creeds, colors or national origins are enrolled.

Section 31. No individual filling a position authorized in items 1-871 of section 1 of this act for any state agency may be transferred to or his services utilized by any other state agency, except as specifically authorized by law, or unless the using agency pays for such services which are in excess of one (1) week.

Section 32. It is the intent of the Legislature that all security, custodial and maintenance personnel and functions of state office buildings located in the capitol center be in the department of general services, therefore, notwithstanding the provisions of section 216.292, Florida Statutes, the administration commission may approve the necessary transfers to accomplish such intent.

Section 33. The Department of General Services, Division of Building Construction and Maintenance, is hereby authorized to levy and assess the costs of supervision of every fixed capital outlay project, as owner-representative on behalf of the State, to be transferred to the Architects Incidental Trust Fund of said division from appropriate construction funds from time to time, subject to the approval of the Department of Administration.

Section 34. Where any agency has been abolished and there is a cash balance remaining in any trust funds of said agency, such balance is hereby appropriated for transfer to the general revenue fund.

Section 35. Appropriations made in section 1 of this act in item 358 and items 645, 646 for any discretionary contingency funds that may be expended in amounts in excess of \$2,500 shall be expended only upon itemized voucher and the personal certification of the respective officials that no funds have been or will be received other than from appropriations in this act for the period of this appropriation for carrying out the duties of the office unless such funds are deposited in the treasury of the State of Florida.

Section 36. Notwithstanding the provisions of sections 215.18 and 215.32, F.S., an amount up to but not to exceed fifty million dollars (\$50,000,000) is appropriated from the working capital fund during the 1970-71 fiscal year for transfer to the general revenue fund. Transfers of this appropriation shall be made only after the state administration commission determines that insufficient moneys are available in the general revenue fund to meet the appropriations from said fund during the 1970-71 fiscal year.

Section 37. Notwithstanding the provisions of any laws or

provisions of laws in conflict herewith any university president may, subject to prior approval by the Board of Regents, transfer between functions and uses within functions not more than seven percent of the funds appropriated to each university, provided, however, that a report of such transfers shall be made to the appropriation committees, the auditor general and the department of administration of all such transfers authorized by this section.

Section 38. Notwithstanding the provisions of any laws in conflict herewith, the secretary of the department of administration, may delegate to any agency or department authority to add and delete positions when such delegation would enable the agency or department to more effectively administer its authorized and approved programs. No agency or department, however, can add positions in excess of the total number of authorized positions approved in its operating budget; provided further, that the annual salary rate as included in the approved operating budget as of June 30 of the current fiscal year of all positions added and established pursuant to this authority shall not exceed the annual salary rate of all positions deleted hereunder during the same fiscal year. At the beginning of each month, the head of the agency or department shall report in writing, any actions taken under this authority during the preceding month to the secretary of administration, the chairman of the legislative appropriations committees, and to the auditor general. This report shall contain such information as prescribed by the secretary of administration.

"Deletes and adds" means the abolishment of an authorized position or positions from an agency's operation budget, and the addition of a different position or positions in lieu thereof.

Section 39. There is hereby reappropriated the sum of one hundred one thousand two hundred thirteen dollars (\$101,213) to the board of regents for capital outlay purposes from projects not realized under previous appropriations of proceeds from bonds and other receipts under the higher education bond program authorized by Article 12, Section 19 of the Constitution of the State of Florida and made to the board of regents or institutions under its jurisdiction for the purpose of transfer to other projects as approved by the board of regents and the state board of education.

Section 40. It is the intent of the Legislature that the director of planning and budgeting simplify the budget format of the operating budgets as authorized in section 216.181, F.S.

Section 41. Any section of this act, or any item herein contained, if found to be invalid or vetoed by the governor without overriding action of the Legislature shall in no way effect other sections or other items contained in this act.

Section 42. This act shall take effect on July 1, 1970.

—was read and considered.

Senator Chiles moved the adoption of the Conference Committee Report on HB 5210. Pending consideration thereof, Senator Karl raised a point of order that the bill was out of order in that it was in violation of Article III, Section 12 of the Constitution because it contained matters other than appropriations for salaries of public officers and other current expenses and attempted to legislate by the general appropriations bill. The chair stated that a ruling would be made on the point of order before final action on the Conference Committee Report.

The hour of adjournment having arrived, a point of order was called and the Senate recessed at 12:32 p.m. to reconvene at 2:00 p.m.

AFTERNOON SESSION

The Senate was called to order by the President at 2:00 p.m.
A quorum present—48:

The Senate resumed consideration of the Conference Committee Report on—

HB 5210—A bill to be entitled An act making appropriations; providing moneys for the annual period beginning July 1, 1970, and ending June 30, 1971, to pay salaries, other expenses, capital outlay—buildings and improvements, and for other specified purposes of the various agencies of state government; providing an effective date.

Senator Wilson raised a similar point of order to the one raised by Senator Karl in the morning session this day.

The President ruled that the point was not well taken that within the framework of the constitutional requirements of the appropriations bill containing only matters concerning the salaries of public officials and current operating expenses, there is no prohibition procedurally to the conference committee recommending and agreeing to other supplemental legislation in separate bills. Further, the conference committees can exercise the latitude that may be required of them in order to prepare an appropriations bill which is acceptable to both houses.

The question recurred on the adoption of the Conference Committee Report on HB 5210, which was adopted in its entirety. The vote was:

Section 4. Paragraph (a) of subsection (9) of section 236.07, Florida Statutes, is amended to read:

236.07 Procedure for determining annual apportionment to each district.—The procedure for determining the apportionment annually to each district foundation program fund shall be as follows:

(9) DETERMINING THE MINIMUM FINANCIAL EFFORT IN EACH FISCAL YEAR REQUIRED OF EACH DISTRICT FOR THE MINIMUM FOUNDATION PROGRAM.—

[(a) Beginning with the 1969-70 fiscal year the formula of index of taxpaying ability, prescribed by section 236.071 shall no longer be used. In its place each school district's share of the minimum foundation program cost shall be determined by the three mill equivalency test as defined herein.]

[1.] (a) The amount that each district shall provide toward the cost of the minimum foundation program shall be [three mills] ninety-five percent (95%) of four (4) mills in 1970-71, ninety-five percent (95%) of five (5) mills in 1971-72, ninety-five percent (95%) of six (6) mills in 1972-73, and ninety-five percent (95%) of seven (7) mills in 1973-74 and each year thereafter of tax on one hundred percent (100%) [assessment] of the nonexempt assessed valuation [of the nonexempt real and personal property] of that district for the preceding calendar year. In making this certification, the auditor general shall consider and be guided by the statutory standards to which the assessors are required to adhere. This certification shall be made no later than May 1 of each year. Districts failing to assess one hundred percent valuation of property will be required to levy the additional taxes necessary to raise the level of contribution to the level of one hundred percent assessment, and such amount should be added to the three mill requirement for participation in the minimum foundation program.] except the first year of the said study. In each school district failing to assess at one hundred percent (100%) valuation of property, the school district share of the minimum foundation program cost shall be computed at a level of assessment equal to one hundred percent (100%) of the nonexempt assessed property valuation of the district for the preceding calendar year. For each year subsequent to the fiscal year 1970-71 the level of assessment of property for each district as determined by the ratio study on the current tax roll shall be applied to the said current tax roll. For the fiscal year 1970-71 the level of assessment of property for each district as determined by the ratio study on the 1970 tax roll shall be applied to the 1969 tax roll, it being the intent of the legislature that there shall be no ratio study performed on the 1969 tax roll. If the funds for the increase in other current expense provided in section 236.07(5), Florida Statutes,

are not appropriated in full for a given year the increased local effort required hereunder shall not apply, and in lieu thereof the local effort required shall revert to the level required for the year in which other current expense was last fully funded. When the amount of the increase of one thousand one hundred dollars (\$1,100.00) in other current expense as provided in section 236.07(5), Florida Statutes, allocated to any district for any year, 1970-71 through 1973-74, is less than the amount of the increase of one (1) mill of required local effort for that district as provided herein an amount equal to the difference of the increase of one (1) mill and the increase in other current expense shall be allocated to the district.

[3.] The financial effort of any school district toward meeting the cost of a minimum foundation program for that district shall consist of the proceeds of the district current school taxes; provided, that when a district is levying the maximum mills permitted by law, race track, federal impact, and national forest funds may be included.

236.072 District ad valorem tax equalization allocations.—There is hereby established, as a part of the district school fund, district ad valorem tax equalization allocations as hereinafter determined:

(1) The average state-wide yield per mill of taxation per pupil shall be determined by multiplying the total non-exempt assessed valuation for the prior year as adjusted to one hundred percent (100%) assessment by one (1) mill and then dividing the result by the total average daily attendance in grades one (1) through twelve (12) for the prior year.

(2) The average district yield per mill of taxation per pupil for each district shall be determined by multiplying the total nonexempt assessed valuation for the prior year as adjusted to one hundred percent (100%) assessment by one (1) mill and then dividing the result by the total average daily attendance in grades one (1) through twelve (12) in the district for the prior year.

(3) The district yield per mill of taxation per pupil shall be then compared to the average state-wide yield per pupil and any district having an average yield which is less than the state average yield shall become eligible for participation in the district ad valorem tax equalization fund as prescribed in subsection (4) of this section.

(4) Multiply the amount of dollars the district is below the state average per mill per pupil by the number of pupils for the prior year in average daily attendance in grades one (1) through twelve (12) in the district; then multiply this product by the difference between the millage for local effort as required by section 236.07(9)(a), Florida Statutes, and seven (7) mills. The amount thus obtained shall be the amount to be allocated to the said district provided, however, that any district not levying for the prior year ten (10) mills for operating purposes or any district having an assessment level below that of the state at large shall not be entitled to any allocation under this section.

(5) The amounts available to any district under the provisions of this section shall be distributed in twelve (12) monthly payments as nearly equal as practicable. The comptroller shall issue warrants based on the certification of the commissioner of education of the amounts due each eligible district; however, for the fiscal year 1970-71 no distribution shall be made until after January 1, 1971, and for the 1970-71 fiscal year the annual allocation shall be divided into no more than six (6) monthly payments in accordance with this subsection.

(6) If the funds appropriated for the purpose of implementing this section are not sufficient to pay the requirements in full, the commissioner of education shall prorate the available funds on a percentage basis.

—which was read the first time by title and SB 24 was laid on the table.

On motion by Senator Mathews, the rules were waived and CS for SB 24 was read the second time by title.

The Committee on Ways and Means offered the following amendment which was moved by Senator Mathews:

In Section 12, lines 7-8, page 7, strike "six million dollars (\$6,000,000)" and insert the following: three million dollars (\$3,000,000)

Senator Mathews offered the following substitute amendment which was adopted:

Strike everything after the enacting clause and insert the following:

Section 1. Short title.—This act shall be known and cited as "the minimum foundation program for local law enforcement officers."

Section 2. Intent.—It is the intent of the legislature to strengthen and upgrade local law enforcement in Florida by attracting competent, highly qualified young people for professional careers in this field, and to retain well qualified and

experienced officers for the purpose of providing maximum protection and safety to the citizens of, and visitors to, this state. It is the further intent of the legislature to establish a minimum foundation program for local law enforcement officers which will provide a statewide minimum salary for all such officers, to provide a state monetary supplement to effectuate an upgrading of compensation for all local law enforcement officers, and to upgrade the educational and training standards of such officers.

Section 3. Definitions.—As used in this act:

(1) "Local unit" means any municipality or any political subdivision of this state employing law enforcement officers.

(2) "Law enforcement officer" means any sheriff, chief of police, or any person employed full time by a local unit whose primary responsibility is the prevention and detection of crime or the enforcement of the penal, traffic or highway laws of this state.

(3) "Existing annual salary" means the annual salary being paid to a law enforcement officer by a local unit based on the payroll of such local unit for the pay period which includes August 1, 1970, or each respective August 1 thereafter.

Section 4. Law enforcement officers, minimum foundation program; financing.—

(1) There is hereby established in the state a minimum foundation program for law enforcement officers, the function of which shall be to effectuate the legislative intent as expressed in section 2. Subject to the provisions of section 6 of this act, the state shall provide a lump sum grant to each local unit on January 1 of each year sufficient to provide a salary supplement to each law enforcement officer in the local unit in the amount of six percent (6%) of his existing annual salary. The funds so provided by the state shall be disbursed by the local unit solely as a cash salary supplement to each law enforcement officer in such amount.

(2) For the years 1971 and 1972 this program shall be financed jointly by the state and local units, each of which shall contribute to the program as follows:

(a) For each law enforcement officer earning an existing annual salary of four thousand eight hundred dollars (\$4,800) or less, the local unit shall add to the existing annual salary six percent (6%) of said salary and the state shall contribute the lump sum amount provided by subsection (1) and in addition shall contribute an amount sufficient to raise the salary of each such law enforcement officer to five thousand four hundred dollars (\$5,400) per year.

(b) For each law enforcement officer earning an existing annual salary greater than four thousand eight hundred dollars (\$4,800) and not more than five thousand one hundred dollars (\$5,100) the state shall contribute the lump sum amount provided by subsection (1) and the local unit shall contribute an amount necessary to raise the total salary of each such law enforcement officer to five thousand four hundred dollars (\$5,400) per year.

(c) So that local units may sufficiently compensate each law enforcement officer based on his individual rank and years of service, the state shall contribute the lump sum amount provided by subsection (1) and an additional amount equal to five percent (5%) of the existing annual salary of law enforcement officers earning less than five thousand four hundred dollars (\$5,400) on August 1, 1970. The purpose of the five percent (5%) state contribution is to provide greater compensation to those law enforcement officers who hold higher rank or have a longer length of service experience. The funds so contributed by the state shall be disbursed by the local unit at its discretion, but said funds shall be used only as a cash salary supplement to law enforcement officers. Each local unit shall be responsible for dispensing such funds among its law enforcement officers in a manner so as to obtain the maximum degree of fairness consistent with the objectives of improving employee morale and incentive.

Section 5. Requirements for participation in program by local units.—The failure of a local unit to make contributions as provided in section 4 shall disqualify said unit from participation in the program. No local unit shall employ any state funds received pursuant to this act, or any federal funds made available under section 8 hereof, for the purpose of circumven-

ting payment of the existing annual salary or compensation for normal pay increases due periodically to its law enforcement officers.

Section 6. Minimum salaries, limitation on state contribution.—After January 1, 1973, the state's annual contribution to each local unit shall not exceed six percent (6%) of the combined salaries of those law enforcement officers of the local unit who are earning five thousand four hundred dollars (\$5,400) or more per year; provided that the state's contribution shall be withheld entirely from the local unit until each of its law enforcement officers receives a minimum annual salary of five thousand four hundred dollars (\$5,400).

Section 7. Salary supplement eligibility requirements.—Every law enforcement officer required to comply with the provisions of part IV of chapter 23, Florida Statutes, must so comply prior to receiving any salary supplement payments derived from the state's contribution, or any federal funds made available toward the minimum foundation program for local law enforcement officers.

Section 8. Cooperation with federal and other agencies, gifts and grants.—In carrying out the intent and purposes of this act, the police standards council may apply for and accept any funds, grants, gifts or services made available to it by any agency or department of the federal government, or any other agency, private institution or foundation, individual or any other source in aid of any present or future program for improvement of law enforcement.

Section 9. Law enforcement officers minimum foundation trust fund.—There is created in the state treasury the law enforcement officers' minimum foundation trust fund which shall be used to assist local units in maintaining the minimum foundation program for local law enforcement officers provided by section 4. Into this fund shall be deposited all appropriations made by the legislature for the support of the minimum foundation program for law enforcement officers and any other funds, gifts, or grants made available to the state for carrying out said minimum foundation program.

Section 10. Administration and apportionment of fund.—The fund shall be administered, apportioned and distributed by the comptroller to local units pursuant to the provisions of this act and standards, rules and regulations adopted by the police standards council pursuant to chapter 120, Florida Statutes.

Section 11. Reports by local units.—Each local unit which participates in the minimum foundation program established by section 4 and the distribution of state and other funds as provided by this act shall submit reports to the police standards council on December 31, March 31, June 30, and September 30 of each year containing information relative to compensation of law enforcement officers employed by it and the disposition made by the unit or any state or other funds received by it pursuant to this act.

Section 12. Continuing salary and retirement studies.—The police standards council, in cooperation with the legislative service bureau and the appropriate committees of the house and senate, shall conduct a continuing study of salaries of law enforcement officers of local units and shall study the adequacy of funds made available by section 13 of this act and recommend to the 1971 and subsequent regular sessions of the legislature what funds are needed to fully implement the provisions of this act. Such continuing study shall also be applicable to the retirement and pension study required by section 3, Chapter 69-252, Laws of Florida, 1969.

Section 13. Appropriations.—

(1) There is appropriated from the general revenue fund the sum of three million dollars (\$3,000,000) for the fiscal year 1970-71, for the purpose of funding the contribution to be made by the state as provided in section 4.

(2) There is appropriated from the general revenue fund the sum of twelve thousand five hundred dollars (\$12,500) for the fiscal year 1970-71, for the purpose of administering the provisions of this act.

Section 14. This act shall take effect January 1, 1971, provided that subsection (2) of section 4 shall expire January 1, 1973, and shall be deleted from the Florida Statutes thereafter.
